

Happy 70th, Israel!

This year on April 19, Israel will celebrate her 70th anniversary as the modern Jewish State.

Nations rise and fall, as the Bible tells us, but never before in human history has a nation been destroyed, her people scattered, and then reborn — not once, but twice!

Though greatly outnumbered, Israel declared her independence in 1948 — a reminder to the world that God still works miracles on behalf of His chosen nation and His beloved children. Seventy years later, biblical prophecy continues to be fulfilled as God is regathering His people to their eternal, biblical homeland.

To mark this momentous occasion, we are participating in a special sermon and teaching series, **Keys to I.S.R.A.E.L.**

Building upon the acronym **I.S.R.A.E.L.**, the series explores six fundamental principles underlying God's covenantal relationship with His Holy Land and His chosen people:

- S** — **S** tate of Israel (LEVITICUS 20:24)
